Qube / Pixomatic

Junior iOS developer

Deadline: 23 February 2018

Employment term: Permanent

Category: Software development

Job type: Full time

Location: Yerevan

Job description:

In this role, you will participate in Pixomatic photo editor, Baby Moments and our other portfolio applications development. As a vital team member you will be participating in the development of our world class programs. Total number of our apps downloads is over 1.6 million.

Job responsibilities:

- As an iOS developer, you would be responsible for developing new features and optimizing existing features in our suite of mobile apps. Mobile apps are important to us. Your work will be highly visible.

- Ensure the performance, quality, and responsiveness of applications

- Collaborate with a team to define, develop, and ship new features

- Identify and correct bottlenecks and fix bugs

- Help maintain code quality, organization, and automatization

- Learn about image processing and photo editors and develop creative new app features to enhance our user experience.

Required qualifications:

- iOS applications development experience. We are no prior work experience friendly, if you can showcase your coding skills.

- Knowledge and experience in Swift, iOS libraries and frameworks (CoreML, Core image, etc).

- Knowledge of iOS design principles, patterns, and best practices.

- Understanding of Apple's design principles and interface guidelines

- Knowledge of OOP best practices.

- Experience working with design files. (Photoshop, Zeplin, etc)

- Eager to learn new programming languages and technologies (C++, OpenGL, etc).

- Experience working with version controls (git).

- Strong debugging, problem solving and investigative skills. Ability to assimilate disparate information (log files, error messages etc.) and pursue leads to find root cause problems.

- Self-starter who can work independently.

- Strong consulting and communication skills. Ability to work effectively with team members in pursuit of problem solutions.

Additional information:

All interested candidates are kindly requested to submit their CVs by e-mail to garik@pixomatic.us .
Please indicate the title of the position in the subject line of your e-mail. We are no prior work experience friendly, if you can showcase your coding skills.
