

**STDev**

## **JS Developer**

**Deadline: 23 February 2018**

**Employment term:** Permanent

**Category:** Software development

**Job type:** Full time

**Location:** Yerevan

Job description:

We are looking for a JavaScript Developer who is motivated to combine the art of design with the art of programming. Ready to join our professional and enthusiastic team? Keep reading.

Job responsibilities:

- Develop new user-facing features;
- Create and maintain highly interactive web applications (JavaScript, AngularJS);
- Build reusable code and libraries for future use;
- Work on single page web applications;
- Ensure the technical feasibility of UI/UX designs;
- Optimize applications for maximum speed and scalability;
- Assure that all user input is validated before submitting to back-end services;
- Collaborate with other developers working on products that rely on Data APIs as well as visualize data;

Required qualifications:

- More than a year's work experience;
- BA or higher degree in IT or related field.
- Strong understanding of JavaScript, its quirks, and workarounds;

- Knowledge of OOP;
- Thorough understanding of ES5, ES6 standards and component based architecture using frameworks like Angular, React and Vue.js;
- Familiarity with JavaScript module loaders;
- Proficiency in web development using modern technologies;
- Project life cycle understanding;
- Ability and willingness to grow;
- Technical level of English;
- Knowledge of any other programming language is a plus.
