

## Software QA / Automation Engineer - Armenia

### Description

At Vineti, we create solutions that scale for healthcare. Specifically, we develop software products that help deliver personalized medicines like cures for cancer. This includes creating a service-oriented, auditable, software platform to support multiple client-facing applications in a regulated market. Highly impactful and mission critical!

We are looking for a Software QA engineer to plan and execute the full suite of testing activities through a period of rapid product and company growth, in close collaboration with Engineering, Product and DevOps teams. You will work closely with core product and customer solutions teams to handle both platform and customer implementation testing. You will also be collaborating with Compliance team to assist with documentation and automation for regulatory validation.

### What You'll Be Doing:

- Developing and executing software quality strategy
- Setting measures and targets for product quality and defect management
- Writing test plans and scripts to align development activities with product targets
- Gathering and analyzing data on quality and defects
- Working closely with engineering, product management, and customer support to ensure quality goals
- Traveling 10-20 percent of the time for customer testing

### The Following Experience and Skills are Important To Us:

- 2+ years software testing experience
- Working knowledge of scripting languages
- Building UI automated test suites (using Selenium/WebdriverIO)
- Experience developing testing plans
- Regression and blackbox testing
- Ability to collaborate and partner with various internal product teams
- Excellent analytical and problem-solving skills
- Care deeply about your work and about the success of your projects
- Solution-focused team mindset

### Bonus Skills:

- Security and penetration testing skills
- Javascript, ES6, ReactJS experience
- Familiarity with BDD / TDD
- Building API automated test suites

### Company Culture and Benefits:

- Mission-driven and passionate about making things that matter in healthcare and solving complex problems in personalized medicine
- Fast growing company backed by major investors
- Opportunities for growth
- Competitive Salary
- Benefits package (Gym Subscription, etc.)
- Premium medical insurance

### Application Procedure:

All interested candidates are welcome to send their CVs to [info.armenia@vineti.com](mailto:info.armenia@vineti.com) and [career@rau.am](mailto:career@rau.am) or apply via the following link: <https://bit.ly/vinetiDeveloper>.
